

ENVIRONMENT & SUSTAINABILITY POLICY

We are committed to conducting our business in an environment friendly and sustainable manner in line with our Vision, Mission, Values & Beliefs and Corporate Policies. As part of this commitment, we will continue to care for environment and address sustainability initiatives together with relevant stakeholders at our airport by:

- Establishing, maintaining & monitoring management systems with environmental & sustainability objectives/targets to enhance & continually improve the performance
- Assessing & mitigating the environmental & sustainability risks associated with the airport operations
- Developing adequate competency & awareness on environmental protection & sustainability
- Adopting an integrated approach influencing favorable climate change through optimal use of resources, promote green initiatives & reduce long-term GHG emissions
- Reporting environmental and sustainability performance as may be appropriate
- Fulfilling all applicable environmental compliance requirements

This policy will be reviewed periodically in line with the emerging requirements & practices.

R.V. Sheshan

Chief Executive Officer
